

A low-angle, upward-looking photograph of a carousel. The carousel's canopy is decorated with vibrant, concentric bands of red, orange, yellow, green, and blue. Several red and blue striped baskets are suspended from the canopy, with people visible inside. The background is a clear, bright blue sky.

Amusement Park Color Guide

ENGINEERED FOR ADVENTURE, RIDE AFTER RIDE

System built for the unique challenges of amusement parks.

- Designed to tackle the unique challenges faced by amusement parks, specifically in protecting high-wear components from harsh outdoor conditions
- Utilizes a strong epoxy primer combined with our proven urethane top coat for exceptional durability and vibrant color retention
- Superior protection against fading, chalking, and cracking, reducing ride downtime for repainting

Vivid colors built to withstand the test of time.

- Bright, eye-catching colors that maintain their vivid hues through the toughest conditions
- 40 striking standard color options to enhance visual appeal and align with your brand identity
- An optional clear coat provides a beautiful, high-gloss finish
- With our diverse technology and finish offerings, we can create personalized solutions to meet your unique needs

Beautiful Rides Start with NCP Coatings

We understand the importance color plays in creating an inviting park atmosphere, so we have selected 40 vivid colors to enhance visual appeal and align with brand identity. Our optional urethane clear coat adds an attractive, eye-catching shine. Contact us for additional color options if needed!
