**COATINGS**

**Built to Perform.  
Ready to Partner.**

# MEET NCP COATINGS

Since 1948, NCP Coatings has established a reputation for performance, precision, and partnership. With over 76 years of experience and a team of experts in formulation, application, and service, we deliver advanced coating systems that meet the highest technical and environmental standards.

Located in Niles, Michigan, we support customers across military, industrial, commercial, and forestry markets with unmatched agility and technical expertise.

*Driven by expertise. Trusted for performance.  
Committed to your success.*

Chemistries include alkyds, epoxies, polyurethanes, polysiloxanes, & high-solids

Developers of Siloxoshield®, the only QPL-approved 1K polysiloxane system

Global market reach through a strong distributor and direct sales network

Fast, customized solutions designed to meet complex customer needs

# INDUSTRY EXPERTISE & PROVEN EXECUTION

We offer an unmatched range of products.

We formulate a diverse selection of resin systems and technologies, catering to military, industrial, commercial, and forestry markets with customized, high-performance solutions.

This unique combination of scale, flexibility, and technical expertise distinguishes us and delivers measurable value to our customers.

# COATING SOLUTIONS THAT FIT THE WAY YOU WORK

## INDUSTRIAL

*At NCP Coatings, we build more than formulas — we build fit. Our industrial coatings are tailored to your process, whether it's fast-moving lines or custom fabrication. With proven technologies like urethanes, alkyds, polysiloxanes, and epoxies, we deliver the performance, efficiency, and durability your operation demands — batch after batch.*

### » AGRICULTURE

Sprayers, combines, grain carts, hoppers, frames, and implements.

### » RAIL & INTERMODAL

Railcars, undercarriages, shipping containers, and intermodal chassis.

### » OEM EQUIPMENT

Large equipment, structural frames, enclosures, brackets, and components.

### » SIGNS & DISPLAYS

Exterior signs, retail display housings, kiosks, and commercial signage.

### » WINDOWS & DOORS

Vinyl, fiberglass, and aluminum door and window frames and sashes.

### » WATERCRAFT

Decking, seating frames, boat trailers, and recreational hull components.

### » AMUSEMENT

Ride cars, gondolas, fencing, support structures, and decorative panels

## COMMERCIAL & FLEET

*Durable, high-gloss finishes designed for trailers, refuse trucks, cement mixers, tankers, and specialty equipment—engineered for long-lasting performance and appearance retention.*

# WHERE PERFORMANCE & AGILITY MATTERS MOST

## DEFENSE & MILITARY

*Defense is a core aspect of our identity. Our military-grade coatings are QPL-approved and trusted across various platforms, meeting stringent MIL-SPEC requirements for durability and reliability. Designed for tactical vehicles, radar domes, and carrier decks, our coatings ensure consistent performance in the harshest environments. - every mission, every time.*

### » AEROSPACE

Aircraft exteriors, landing gear, helicopter blades, and support equipment

### » NAVAL

Ship exteriors, non-skid decks, topcoats, radar domes, and internal non-flame areas

### » GROUND BASED

Tactical vehicles, support trailers, mobile radar systems, and artillery

### » SPACECRAFT

Space vehicles, launch components, satellite structures, and specialty systems for extreme environments

### » WEAPON SYSTEMS

Drones, mounted systems, guided munitions, and next-gen battlefield technologies

## FORESTRY

*Exclusive supplier to the U.S. Forest Service, we provide trusted solutions for forestry management—including tree marking, harvest boundary systems, and marking for utility corridors and land surveys.*

*From high-traction deck coatings to exclusive defense-grade technologies, our branded solutions are engineered to meet performance, durability, and compliance requirements across multiple markets.*

## SiloxoShield®

This advanced polysiloxane coating system provides military-grade durability without the use of hazardous isocyanates.

Trusted by the U.S. Navy and QPL-approved, it offers exceptional corrosion resistance along with excellent color and gloss retention.

Available in both 1K and 2K formats, the system includes options such as low solar-absorbing pigments and a new low-gloss aerospace variant, ensuring it meets the highest standards for industrial, naval, and aerospace applications.

## DynaSpec®

Our flagship military brand, DynaSpec® encompasses a full portfolio of high-performance systems for defense applications — including primers, topcoats, and specialty coatings.

As one of only four approved manufacturers of CARC coatings, NCP delivers MIL-SPEC solutions that meet the most rigorous U.S. Department of Defense requirements, while also supporting additional military-grade technologies for ground, naval, and aerospace platforms.

## Dura-Mar<sup>®</sup>

This high-solids polyurethane system is designed for trailers, fleet vehicles, and equipment, offering a mirror-like finish, fast drying times, and easy application.

With superior gloss, coverage, and affordability, it sets a new standard for commercial coatings based on performance and value.

## DYNAGUARD<sup>®</sup>

A durable, textured polyurethane coating designed for non-skid protection on metal surfaces in industrial, utility, and automotive settings.

It offers outstanding resistance to UV, abrasion, and chemicals — ensuring long-lasting protection and visual appeal.

## SiloxoGrip<sup>®</sup>

This advanced polysiloxane-based non-skid coating is engineered for naval and marine platforms requiring high friction, chemical resistance, and cooling properties.

It outperforms epoxy systems by extending service life 2–3 years, while reducing maintenance in harsh, wet or dry conditions.

## BARKMARK<sup>®</sup>

Recognized by the U.S. Forest Service for its long-lasting visibility in challenging outdoor conditions, with durable formulas enduring for 6 to 8 years.

## FortiShield<sup>™</sup>

Water-based and solvent-based systems for residential and commercial doors and windows, ensuring durability, aesthetics, and environmental compliance.

## DynaGrip<sup>®</sup>

Durable non-skid coating that provides reliable traction in various textures. Designed for lasting performance in demanding industrial and commercial applications.

# THE NCP ADVANTAGE: MORE THAN COATINGS

## PARTNERSHIP

### ENDURING CONNECTIONS

We build long-term relationships with OEMs, contractors, and distributors that drive mutual success and sustained growth.

## INNOVATION

### BUILT FOR TODAY.

### READY FOR TOMORROW.

As the creators of Siloxoshield® and other cutting-edge solutions, we bring market-ready, compliant technologies to life — fast.

## SOLUTIONS

### PROBLEM-SOLVING IN PRACTICE

Our R&D and technical service teams work closely with customers to solve challenges quickly, with clear answers and real support.

## AGILITY

### WE SAY YES. THEN WE DELIVER.

With small-batch flexibility, fast lead times, and a willingness to take on complex work, we do what larger companies won't.

# DEEP CAPABILITIES PROVEN EXECUTION

*Leveraging our scale, technical depth, and service-first culture, NCP delivers high-performance coatings with speed, consistency, and confidence.*

## R&D EXCELLENCE

- 225+ years of combined formulation experience
- U.S. Army & Navy Research Lab partnerships
- Industry leaders in chrome-free, Oxsol-alternative, and HAPs-free coating innovations

## QUALITY & COMPLIANCE

- ISO 9001:2015 re-certified
- GHS, REACH, and TSCA-compliant
- Active MIL-SPEC / QPL product approvals
- Proven track record in VOC- and HAP-free technologies

## OPERATIONAL STRENGTH

- Flexible 2M-gallon capacity with dedicated manufacturing cells
- Blending/Intermix Center for fast-turn custom batches (1–50 gallons)
- Small-batch ready with fast turnaround
- Structured to scale up rapidly without sacrificing agility

## PEOPLE POWER

- Deep levels of expertise from lab bench to loading dock
- Relentless focus on product quality and customer outcomes
- Teams built to collaborate, solve, and deliver
- Pushing boundaries, embracing innovation, and achieving sustainable growth

# PARTNERSHIP THAT PERFORMS

## MARKET EXPERTISE

### BRINGING DEPTH TO EVERY CONVERSATION

- 200+ years of combined sales and technical experience across military, industrial, and forestry
- MIL-SPEC, QPLs, and government procurement subject matter experts
- Strong distribution and end-use application knowledge

## TRAINING & EDUCATION

### BUILDING CONFIDENCE AND CAPABILITY AT EVERY LEVEL

- Mishawaka, Indiana Training Center
- On-site, virtual, and classroom sessions
- Custom programs for OEMs, distributors & applicators

## TECHNICAL SUPPORT

### SOLVING PROBLEMS SIDE-BY-SIDE, FROM LAB TO LINE.

- Line trials, demos & process validation
- In-field troubleshooting and service
- Closed-loop feedback into R&D

## SALES ENABLEMENT

### EQUIPPING YOUR TEAM TO GROW FASTER AND SELL SMARTER.

- Joint pipeline development and lead sharing
- Co-selling through NCP or distributor partners
- Co-branded brochures, flyers & end-user tools
