

DYNAGRIP®

DynaGrip® 50

DynaGrip in 50 Grit (ultrafine). Spray applied using conventional pressure-feed systems for larger production runs, or convenient hand-held off-the-shelf undercoatings spray guns. Used to protect surfaces with impact resistance and some slip protection.

DynaGrip® 20

DynaGrip in 20 Grit (fine). Spray applied with conventional pressure-feed systems for larger production runs, or convenient hand-held off-the-shelf undercoatings spray guns. Replaces inferior peel-and-stick nonskid tapes known to curl away from substrates over time.

DynaGrip® 15

DynaGrip in 15 Grit (medium-coarse). Roll-applied aggressive surface coating. Lower profile and less rough than found on U.S. Navy ship decks.

DynaGrip® 12

DynaGrip in 12 Grit (coarse). Roll-applied surface coating. Matches to U.S. Navy ship decks' rugged profile and surface roughness.

Nonskid, Nonslip Coatings

Demand a highly flexible, impact-resistant and UV-stable finish: DynaGrip® 2-component urethane coating.

- **Flexible polyurethane non-skid coating**
- **Excellent durability & weatherability**
- **Fine and coarse grits**
- **Excellent wear resistance & coefficient of friction**
- **Excellent chemical & solvent resistance**
- **Good flexibility & impact resistance over a wide range of substrates**
- **Available in a wide range of colors**
- **Designed for roll or spray application**
